Dumbbell • Triangular Iron Ring •
Elastic Band

A row of light-colored wooden Pilates reformers in a bright studio. The reformers are arranged in a line, receding into the background. Each reformer has a beige mat, a footbar, and a carriage with springs. Some have additional boxes or props. The studio has white walls, a large arched mirror, and warm lighting. A potted plant is visible on the right.

MAPLE SERIES

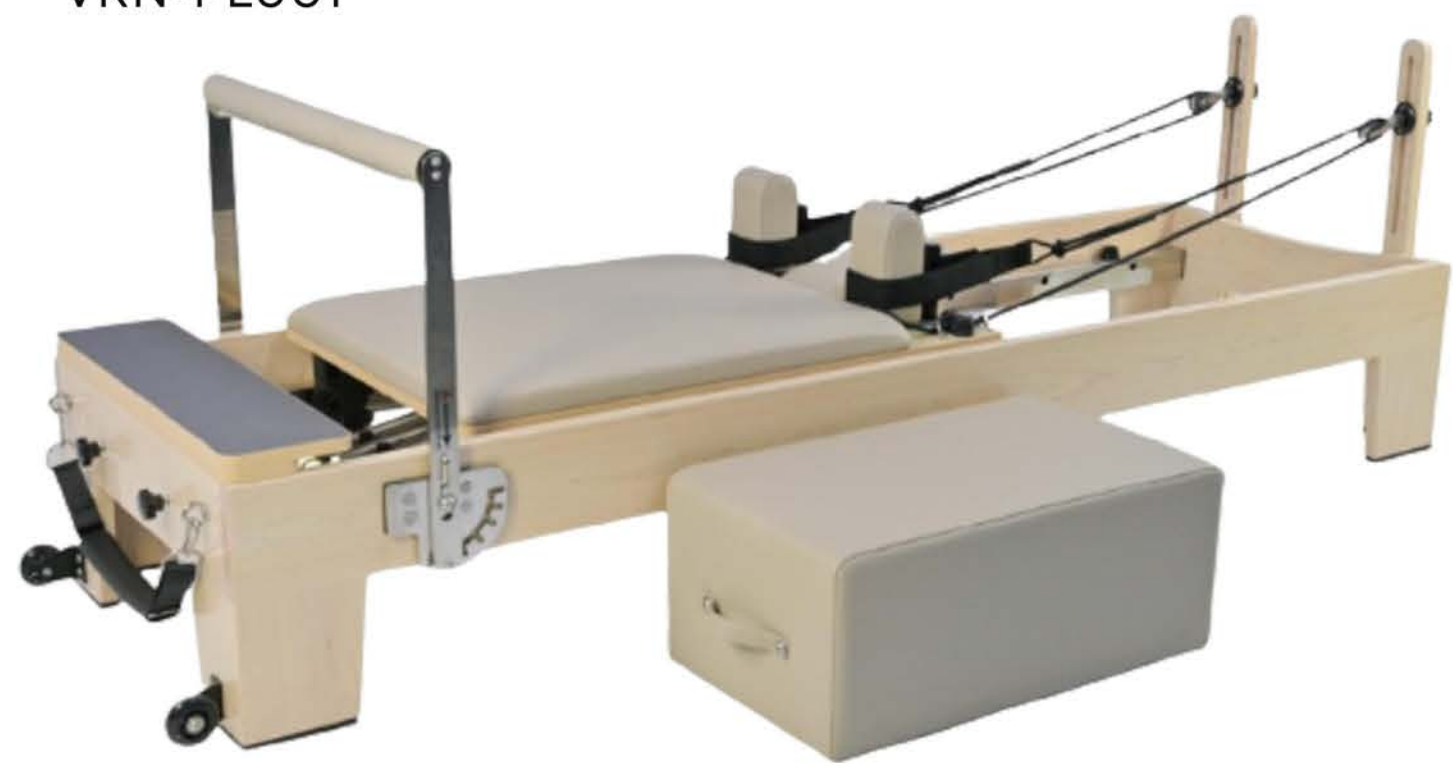

Imported North America Maple, wood Light color, uniform density, balanced strength and resilience.

Maple is valued for its balanced hardness and structural stability, offering a smooth and consistent response during movement. Its fine grain and uniform density help maintain precision and control across repeated exercises.

ALUMINUM SERIES

High grade aluminum frame Lightweight, corrosion-resistant, high load capacity.

Aluminum provides an optimal balance of lightweight construction and structural strength, with natural corrosion resistance that ensures long-lasting performance. Its rigid frame maintains precise alignment while reducing overall equipment weight.

Engineered with professional training standards in mind, the AOC Pilates Aluminum Series delivers smooth operation, responsive control, and reliable safety-ideal for modern studios seeking efficiency, flexibility, and a clean, contemporary aesthetic.
